EDUCATION

University of Nevada, Reno

Ph.D. in Computer Science

Reno, NV

Aug. 2022 – Dec. 2025

University of Nevada, Reno

MS in Computer Science

Reno, NV

Aug. 2021 – Dec. 2023

Gujarat Technological University

BS in Electronics and Communication Engineering

Ahmedabad, India

Sep. 2013 – Apr. 2017

TECHNICAL SKILLS

Languages: Python, R, C++, MATLAB

Deep/ Machine Learning Libraries: Tensorflow, Keras, PyTorch, Pandas, Numpy, Matplotlib, Scikit-learn

Research Area: Applied ML, Generative AI, AI in Healthcare, Computer Vision and Pattern Recognition

RESEARCH EXPERIENCE

Graduate Research Assistant

University of Nevada, Reno

Aug. 2021 – Present

Reno, NV

- Conducted research on the application of artificial intelligence in medical imaging, focusing specifically on neural network methodologies such as convolutional neural networks (CNN), transformers, and generative models (diffusions) for processing mammogram images to detect invasive masses.
- Collaborated with the Mining lab to develop a storage repository that efficiently stores vast amounts of raw data in its native format, streamlining data accessibility for diverse end-users across the organization.

TEACHING EXPERIENCE

Instructor

University of Nevada, Reno

Aug. 2023 – Dec. 2023

Reno, NV

- Course taught: GRAD 778: Elements of Research Computing
Designed and delivered comprehensive instruction to over 100 graduate students, covering essential research components within the field of computational engineering

Graduate Teaching Assistant

University of Nevada, Reno

Aug. 2021 – Dec. 2021 & Aug. 2022 – Dec. 2022

Reno, NV

- Course: ENGR100

Assistant Teacher

South Point School & College

Dec. 2017 – June 2021

Dhaka, Bangladesh

- Course taught: Cambridge IGCSE A Level Physics

PROJECTS

Enhanced Mass Segmentation from Whole Mammographic Images Using Optimized U-Net | *Tensorflow* | [GitHub](#)

Multi-View Mammogram Classification with Swin-Transformer | *PyTorch* | [GitHub](#)

Comprehensive Analysis of 3D Shape Classification and Semantic Segmentation | [GitHub](#)

Score-based Diffusion Generative Classifier | *PyTorch* | [GitHub](#)

Conditional Diffusion Model for Semantically-Aware 3D Point Cloud Generation | *PyTorch* | [GitHub](#)

Unsupervised Anomaly Detection for Multivariate Time Series | *PyTorch* | [GitHub](#)

Generating Synthetic tree point clouds for automated part segmentation | *PyTorch*

ACTIVITIES & LEADERSHIP

Google Developer Group at Campus in UNR

University of Nevada, Reno

current

Reno, NV

- Serving as the Lead of the GDG at UNR, I organized impactful events and workshops, led a team in the development of diverse projects, and collaborated with Google's Developer Relations team to enhance the campus technical community.

SUMMER INTERNSHIP

Network Engineer Intern

Teletalk BD Ltd

June. 2016 – Aug. 2016

Dhaka, Bangladesh

- Conducted in-depth research and collaborated with a team of experts in the field of mobile communications.

ACADEMIC ACCOLADES

Nevada Drive Scholar

Aug. 2023 – May. 2025

- Selected twice as a Nevada Scholar for the Nevada DRIVE program, promoting Doctoral Research in Innovation, Vision, and Excellence.

Indian Council for Cultural Relations Scholarship

Aug. 2013 – Apr. 2017

- Awarded the Fulbright scholarship for undergraduate studies at a prestigious engineering institute in Ahmedabad, India, awarded to students with exceptional academic achievement and leadership potential.
